

Dear Valued Customer,

Great news! The 2024-2025 Prepay Heating Oil Program price is \$3.499/gallon. This prepay rate is available while supplies last – quantities are limited. Please see below for plan details and enrollment.

Union Fuel will also continue to offer our budget and prompt payment plans as usual if prepay is not the right fit for you.

- Prepay rate of \$3.499/gallon when payment is made by check or cash. Rate is \$3.549/gallon if paid using MasterCard, Visa or Discover credit/debit card. PA commercial and/or rental properties must add 6% sales tax.
- Prepaid gallons purchased will be available for delivery at the prepay rate starting September 1, 2024 and ending on April 30, 2025. Gallons not used by April 30, 2025 will be converted to a dollar credit on your account and will be available toward future purchases. No refunds will be made.
- Gallons delivered over prepaid gallons, or gallons delivered outside of the contract time frame will be invoiced at our posted market price under regular terms.
- Prepaid heating oil will be delivered automatically. Current contract prepaid gallons will be delivered first. Additional delivery requests are subject to normal delivery minimums.
- Your account will remain on automatic delivery after the program end date and beyond delivery of pre-purchased gallons unless Union Fuel is notified in writing otherwise.
- Prepayment is to be used against heating oil only. Any other charges, such as burner service or repairs will be billed separately.
- This contract at rates above is available on a limited quantity basis and will be withdrawn when supplies are depleted. Receipt of full payment of your contract amount guarantees your plan enrollment.
- The Prepay Program is a fixed price plan. This means that your contract rate per gallon will not be adjusted (up or down) in relation to daily market price fluctuations.
- No additional discounts/offers may be combined with this program.
